CAPITAL GETTING IN STARTING FIFTH LEVEL ON DIVIDE

they decide to act. They have taken a number of options on short terms.

Joe McEachen, U. S. marshal, put in a busy day yesterday in closing up a deal by which he secured possession of seven claims forming the North Divide group and known as North Divide Nos. 1, 2, 3, 4, 5, 6, and 7. These claims have nothing in common with the company of the same name as they were located ten years ago and have passed through several hands since then. The original locator is understood to have turned over the bunch for a trifle over \$100 at a time when Divide holdings were regarded as next to worthless. Title passed to John S. Dalzell, of Youngstown, O., who in turn gave an option to Frank T. Dunn who turned over the entire estate to Mr. McEachen late last evening for Reno capitalists. This is the first known time when Reno placed a dollar directly in Tonopah or vicinity and the fact is hailed with some unctious as demonstrating the extent to which the Divide movement has gone. The claims are north of the Sutherland.

Joe McEachen says the whole western end of the state is aroused as it never has been before and that the rush to the brokerage offices baffles his ability to describe. The other day during the excitement when the street was blocked with buyers eager to place orders one of the Reno brokers succumbed to the high pressure business and fainted dead away at his desk. Doc Frazier, formerly of Tonopah, is handling the business at Smith & Amann's Reno office. Bill Maxwell, owner of the Arlington Hotel, has cleared \$100,000 on Tonopah Divide which he bought at 15c when Cal Brougher stopped in one evening and told a bunch of his old cronies to get in. McEachen was one of the crowd. He did not have the money available at that time and next day took his liberty bonds out of the vault and went to a Reno bank to ask for a loan. As he entered the bank he got cold feet as he realized that his action might be interpreted as disloyalty to a government that was in need of money. He never asked for the loan and therefore did not buy Tonopah Divide at 15c.

Recently the officer was narrating the story when every man in the group, representing some of the heavyweight capitalists of Reno, told him to get down to Tonopah as quickly as steam could carry him and grab something that looked good and they would deposit the money in the bank in advance. That is how this particular sale of the North Denver group was made. Manager Roberts is getting ready to put in one of the heaviest equipments in camp as he is confident that the Belcher will be one of the great mines. The shaft will be sunk where the best values have been found and it would not be surprising if quick results were realized before making any great depth.

The sales of stocks for the day in San Francisco dropped to 680,000 of which the leaders were as follows: Divide, 5000; Hasbrouck, 18, 300; Dividend, 48,000; Brougher, 15, 000; Gold Zone, 37,100; Silver King, 27,000; Gold Wedge, 37,000; Rosetta, 76,000.

11 FEET OF ORE IN THE BROUGHER

Brougher Divide has reached the footwall of the big vein which shows eleven feet of commercial ore, according to a statement of Gust Hanson. The footwall was reached on the graveyard shift last night and now a drift will be run along the wall where high values may be expected as there are indications of an improvement in values.

WEST END MAY WORK '79' GROUND

A meeting of the stockholders of the Tonopah Seventy-Six has been called to be held in Reno on April 14 when important questions will come before the stockholders for consideration. One of these is a contract with the West End company by which that company secures the right to enter the ground of the Seventy-Six and extract ore. This would be through the workings of the Ohio where it is said the West End at one point is directly on the dividing line. This proposition has been mooted for some time and it is said that a majority of the stockholders of the Seventy-Six are in favor of the agreement which also carries extra-lateral rights.

CONSTANCE TALMADGE AT THE BUTLER TODAY

Frances Hodgson Burnett's famous novel of international romance, "The Shuttle," was adapted for film use by Constance Talmadge and will be the attraction at the Butler today.

Mrs. Burnett has an enviable record of popular novels, almost all of which have been dramatized and many of them pictured as well. "The Shuttle" is perhaps the most polished product of Mrs. Burnett's pen, for it is a fast moving story of unusual dramatic force with a universal appeal. As Bettina Vanderpool, the brisk, independent, energetic American girl who brings her elder sister, Lady Abstruthers, back to health and spiritual well-being, Constance Talmadge repeats the sensational success as a dramatic star which she registered with "Scandal." "The Shuttle" is a distinct success—inevitably so, having Frances Hodgson Burnett as the author, and Constance Talmadge as the captivating star.

Added to the program will be the latest Pathe News. Tomorrow, a special attraction, with an all star cast, "The Hun Within," a Paramount Aircraft special.

CHARLIE CHAPLIN AND THE JAZZ BAND TONIGHT

Two big features at the Airdome tonight. The first thing on the program will be a new Charlie Chaplin picture, "Triple Trouble." This is the first appearance of this picture in Tonopah and it is classed as one of Charlie's best. The picture machine has been thoroughly overhauled and projection is going to be the best. The Rathburn jazz band will render the music to accompany the picture and they will play music to the best of your taste. Although this is the funniest picture ever shown, the Rathburn music will tend to make it more impressive and it is sure a laugh from start to finish.

Following the picture the dance of the season will be held, music furnished by the jazz band. Picture at 7:30 and dance promptly at 8:30. Everyone is invited to attend and assured the time of their life. Remember, tonight, the unexcelled jazz band, the big dance, and the funniest picture, a Charlie Chaplin, all for 10 cents—tonight—at the Airdome. Come early and avoid the rush.
